I wish to respond to the Commission's preliminary review letter, received on June 10, 2002, which references our Amended April Quarterly (1/1/01-3/31/01) and Amended July Quarterly Report (4/1/01-6/30/01), and raises questions about administrative expenses.

ARPAC does not incur any administrative support costs for the purposes of operating the PAC because all personnel services to the PAC are on a volunteer basis. Subsequently, we do not have any rent or utility costs associated with operating the PAC. The only costs associated with the PAC are expenses for new checks, which we just ordered last month and will be reported in the next July Quarterly.

If you have any further questions or concerns regarding our administrative costs, -please do not hesitate to contact me at 202-737-3234.
