Dear Ms Balderama I am writing in regard to your Request for Information letter dated July 30 2003 that relates to the disclosure of the identification of all individuals who contribute in excess of two hundered dollars. Please note the following all solicitations or invitations from our committee have a cut off or response card that requests that the fill our the name occupation and employer. Second at our events the volunteers who work the door have contributors who pay at the door or who have not returned the cut off or response card fill out a compliance sheet. After the event the information is entered into our database and we either send out a thank you letter or if the information is missing we send a request for the information letter that states we are complying with Federal law and include a self addressed stamped envelope. Once we reiceve the information from a number of contributors or a reasonable amount of time goes by the information is entered and we file an amendment. Which we do for the report in question when the information is received. I trust this satisfies you inquiry but feel free to contact me should there be anything else you require. SCOTT G. KAUFMAN
