Re: C00331769
April Quarterly Report (2/14/02-3/31/02)

Dear Ms. Sugarman;

I have been asked to respond to your inquiry dated May 21, 2002. Please note the following items for your inquiry:

The discrepancy in the election to date cycle totals is due to an amendment filed for the preceding reporting period. We received a notice in mid April regarding a January 24 "in kind" contribution in the amount of $2,924.54. We included that item on the amended report. Because of this amendment, election cycle to date totals in the previously filed quarterly report did not reconcile. Both contributions and expenditures are different by the amount of the amended "in kind" contribution. This discrepancy will be corrected with the amendment filed this week.

The committee's solicitations include a clear and conspicuous request for contributor information. The solicitations also include a clear statement that the information is required under the Federal Election Act. The committee's accountant forwards listings with missing contributor information to the committee and its professional fundraising consultants on a regular basis to assure that committee staff can follow up with additional requests within the 30 day period. The fundraisers for the committee and committee staff follow up with requests for information within the required 30-day period, usually much sooner. The follow-up correspondence also includes a clear statement that the information is required under the Federal Election Act. In addition, our amendment to be filed this week includes several revisions to the Schedule A information for missing contributor information that was received after the report was filed.

We have reviewed the contributions received after the primary election by designated for the primary election. First, we carefully analyze contributions at the time of receipt when the election date is so close. We pay particular attention to contributions received during the first week after the primary for the issues that you have discussed. We have noted the following corrections that will be included on the electronically filed amendment:

1) Two small "in kind" contributions were correctly designated for the primary election but erroneously dated March 20, 2002. The date of the "in kind" contribution has be changed to the date of the original expenditure, February 17, 2002. The original date was incorrectly used because that was the date that the contributor first provided the committee with notice of the in-kind contribution.
