[BEGIN TEXT]
Dear Ms. Needles,

This letter is in response to your letter date April 24, 2002.
You noted that we have limited administrative costs such as rental and utility payments. An accounting oversight caused no rent or electrical payments to be made by the National Leadership PAC during the reporting period. Another committee which shares office space with the National Leadership PAC, Rangel for Congress inadvertently paid the National Leadership PAC's portion of the rent. We have corrected this by amending this report to show an in-kind contribution by Rangel for Congress to the National Leadership PAC for the amount of $2400.66. This is the National Leadership's share of rental costs and electrical usage. Rangel for Congress will also be amending their reports to show this change. Please note that the National Leadership PAC does have other utilites listed on line 21b such as telephone costs.
In addition you will see an additional $1642.72 within the operating expenditures, line 21B. This was a computer entry error, in which a disbursement to Xpedite Systems from 11/27/01 was not originally reported. We will also be filing an amendment to the subsequent report, originally due April 15, 2002 because of changes to the cash on hand.

Thank you.
Holly Giarraputo
