With regard to your letter dated December 8, 2004, regarding the committee's Amended December Monthly Report (11/01/03-11/30/03) filed on 11/19/04, the report was filed after the committee conducted its own internal audit of its 2003 reports. As a result of that audit, the committee discovered that the disbursements totaling $19,146.01, which were all related to a PAC fundraiser in New York, had not been reported on the original filing. The committee has reviewed its accounting procedures in an effort to avoid this type of error in the future.
