This F99 is in response to an FEC request for more information for Buckeye State PAC's October 2004 Quarterly Report. The Commission questioned the lack of operating expenditures made over the last 2 year cycle. Buckeye State PAC is a small PAC that has not, to date, incurred many operating expenses. The primary requirements of the committee's function are administrative tasks, which are performed on a volunteer basis. Those operating expenses which have been incurred, such as bank fees, shipping costs and computer software, have been accurately reported to the FEC.
