RE: July 2002 Monthly Report (06/01/02-06/30/02)

Dear Mr. Walker;

This correspondence is in response to your "Request For Additional Information" ("RFAI"), resulting from the Republican National Committee's ("RNC") "July Monthly Report (06/01/02-06/30/02)" received 9/13/2002.

Regarding the events listed on Schedule H2 for which there are no apparent disbursements, an error in processing caused the corresponding disbursements to indicate the wrong event. The events are M6,P6,S6,G5 and M5. While these events are correctly reported on schedule H2, the second digit was truncated from the corresponding schedule H4 disbursement records. Consequently, the disbursement records appear to refer to an event that was not listed. These records have been corrected and the report has been amended. Please note, the data reported was correct to the best of our knowledge. The missing information does not change any financial calculations of this report. Processes are being implemented to avoid this type of error in the future. This problem was first discovered on the report prior to this one. Due to the time elapsed between filing the report and when the error was discovered, we had filed this subsequent report before we were aware of the problem.

To clarify expenditures listed for Radio Time, Video Production, Telemarketing, Ad Costs, Media Costs, Advertising, Satellite Time, Video or Broadcast Costs, these are RNC operating costs. None of these expenditures are Candidate specific. They are either generic overhead costs or RNC fundraising costs. This note is attached to all filings that include these costs.

We have corrected and filed the amended Schedule H4 and Schedule B to correctly indicate the purpose of disbursements that had previously indicated trans or supplies.

Regarding Year-to-Date totals for Administration/Voter Drive and Event T and the transfer of the Federal share of the in-kind from James Davison, the mislabeling of the Event on Schedule H4 for this transaction caused the apparent miscalculation. The Event is known as T6. The records related to this transfer on Schedule H4 were indicated as Event A when they should have been marked as Event T6. In this way the Year-to-Date calculations as well as the ratio of the Federal share would be correct as reported. The Schedule H4 records related to this have been corrected to properly indicate Event T6 and the report has been amended.

I trust this response answers your inquiry. However, if you need further clarification please do not hesitate to contact me.

Sincerely,

Pat Huyck

Director of Accounting
