Re: FEC Amendments for account number C00007922

Per the request of your office, we are enclosing amendments for the months of August, September, and October 1999. For the month of August, you stated our report disclosed a returned contribution from a federal candidate for $2,500.00. The report was filed this way because of a check we had received from the candidate. Since the refund came in the form of a check from the candidate's campaign office I am assuming according to your instructions that we have filed correctly.
