RE: Federal Election Commission Notice 09/01/15
30 Post-General Report (04/01/2015 – 06/30/2015)
FED Identification #C00346312

To whom it may concern:

We write in response your letter of September 1, 2015, regarding the Committee's July Quarterly Report. The letter asks about several contributions that appear to exceed the limits.

With respect to the contributions identified as "Excessive Contributions from Affiliated Committees" and "Excessive Contributions from Committees," as it indicated on its July Quarterly Report, the Committee sought redesignation of the excessive portion of these contributions for the 2016 general election. In all but one case, the Committee received timely redesignation. In the one instance where the Committee did not receive timely redesignation, the Committee refunded the excessive portion of the contribution. The redesignations and refund will be reported on the Committee's next report.

With respect to the contributions identified as "Excessive Contributions from Committees not Qualified for Multi-Candidate Status," the Committee has refunded the excessive portion. These refunds will be reported on the Committee's next report.

Lastly, with respect to the contributions identified as "Excessive Contributions from Individuals," for two of the contributors, the Committee refunded the excessive portion, just as it indicated on its July Quarterly Report. These refunds will appear on the Committee's next report. For the other two contributors, the contributions were originally designated between the primary and general elections but, due to a data entry error, the Committee reported all of the contributions as designated for the 2016 primary election. The Committee will file an amended report showing the proper designation of these contributions. In one of these instances, the Committee has also issued a partial refund, which will appear on the Committee's next report.

Should you have any questions, please contact the Committee.

Sincerely,

Michael Toth
Treasurer
