

On May 15, 2008, the Committee refunded \$5,925.45 to Insulators Local 16 after discovering that what the Committee had assumed were contributions from individual members of Local 16 were in fact contributions from Local 16's general treasury. A contribution of \$3,775.20 was received from Local 16 on February 27, 2007 and a contribution of \$2,150.25 was received on October 3, 2006. Those receipts were initially reported as unitemized receipts in the reports covering those periods, based on the assumption that they represented contributions from individual union members.
