

This miscellaneous submission is in response to the Commission's letter dated March 3, 2006. No expenditures are made on behalf of specifically identified federal candidates. Catering costs are for fundraising events for the Committee.

Consultant: Fundraising costs are related to the fee paid to the consultant that handles fundraising for the Committee and handles some of the administrative functions of the Committee.

This Committee is not large enough to maintain an office. Administrative functions are handled by consultants. The fees for these services are included in the expenditures made to the fundraising consultant and the compliance/accounting consultant.
