The original filing for this time frame was made by a representative of the previous filing software company who'd been paid to file 2017 reporting on behalf of the PAC when the PAC entered into an agreement to use the previous filing software company as its' filing software program.

Additionally, during 2017, there was a different accountant working for the PAC (prior to the one being used currently). When a switch was made to utilize a more user friendly filing software program, it was suspected that a lot of missing/incorrect data was used in the original filing, prompting a full and complete audit to be conducted. As a result of this audit, additional receipts and disbursements were discovered and so we basically started over from mid-year 2017 and re-filed everything all the way forward.
