Federal Election Commission
999 E Street, NW.
Washington, D.C. 20463

ID Number: C00387126

Reference: 30 Day Post-General Report (10/19/06-11/27/06)

To Whom It May Concern:

We are in receipt of the Commission's above referenced letter. Please see below for our complete response.

All contributions counted for the general election were made during the general election. Almost all of the contributions in question were received through the mail. We keep on file the envelopes that have the postmarks that permit us to accept these contributions. The reported date is generally the deposit date which can be several days later.

We have in place a system to meet all of the tenants of the best efforts standard established by the Commission. All of our initial solicitations contain the request for the information and inform the potential donor that we are required by federal law to make the request. If it is not provided with the contribution, we make a follow up request within 30 days that does not contain another solicitation. We provide them with both a fax number and a self addressed stamped envelope. This request also informs the donor of the federal law requiring us to request the information. Finally, we provide the information gained after a particular reporting period to the Commission either by an amendment to the original report or by providing it in a response such as this. Please see below for the information gained via our follow up requests that were received after the original filing.

Thank you for the opportunity to respond, we trust that this completes the public record.
