

Twelve Visions for America

Visit Web-Site: www.DrBeebeForPresident.com

1st Vision Water independence! We can siphon off rising sea levels with fresh water lakes throughout the country. The BlueGreen Revolution! Twenty desalination plants on the western coast of the USA paid for with 10% of our military budget (plus one in Hawaii, one in the gulf and 5 on the east coast). Water is a must for our Security. (NATO should provide more in desalination plants and water delivery systems than weapons!)

2nd Vision Every household and every citizen over 18 is mandated to have a star trek like phaser for self defense. Set permanently on stun, you can knock people out but you can't mass murder people. The country that sent humanity to the moon and back safely can do this and bring safety and security back to America!

3rd Vision We need to treat our neighbors like neighbors. There is a de facto insecure open border. North America should have high tech security savvy, secure open borders.

4th Vision The war on drugs is a travesty. Drugs should be legal with a mandate for education on the effects it will have on you and the consequences if you abuse them. Room at Hotel California where you can check out but never leave!

5th Vision All Government Offices in America should go with Apple Computer.

There are literally no viruses with apple and the security is light years ahead of other systems. If it is not an apple it is a lemon. No more getting 20plus million Government employees hacked.

6th Vision All the Beebe cabinet does yoga and meditates we need a Spiritual Awakening in America and Tommy the Swami Superturtle can show us the way! Government should never establish a religion but Government should always be informed by the best of religion. It was Abraham Lincoln who said give me a Church with just the Great Commandment and I will join that Church. Love of God and neighbor is the simple truth of the Gospel. The rest is dogma. But if a candidate believes the world began less than 10k years ago they should not be able to use the advances of science to advance ignorance of science.

7th Vision Ralph Nader 30 years ago said at UCLA where I was a student, Our number one job in our life time is being a Citizen! As a right of citizenship all Citizens should have access to cool, clean, clear, medicinal water; healthy organic food and basic shelter. It should also be a right of citizenship to have a public education from preschool through college. A small fraction of the money sent overseas to escape taxes and fund military arms would pay for it.

8th Vision Dr. Beebe's emerging non profit is Unicology celebrating the oneness of all creation. I have a picture of my daughter on a recycled unicycle balancing a picture of the earth from space the caption reads, "Earth's Balance Depends on Us" Unicology celebrates that we genetically are more than 98% the same as human beings. It won the national competition for Gifted Magnet schools. Media loves to divide by race, religion, ethnicity and social class but we are all one as Americans as Global Citizens and as Human Beings. Neither male nor female if we breathe we have spirit and in the Spirit we are One.

9th Vision There is a bumper sticker that reads "Great country, lousy empire". We cannot be the United States of the World and yet we are the last best hope for giving quality leadership to what has become One World, One Global Community. Let us lead by example, bring Peace on earth and letting it begin, to paraphrase the American song favorite, with us! Let us be responsible Global Citizens and lead in the ways of Peace!

10th Vision Vision The Space program is a priority. We will eventually colonize maybe some of the 40,000 earth like planets that NASA says are out there. From velcro to telecommunications to iPhones and computers our travel in space has exponentially increased our understanding of the wonders of God's Universe.

11th Vision Henry David Thoreau said 150 years ago we need to evolve beyond eating other animals.

The China Study proved that an animal based diet is responsible for all of the diseases and a plant based diet is the way to prevent or reverse those diseases. Our country has too much dependence on prescription drugs and not enough emphasis on organic fruits and vegetables and clear, clean, cool, medicinal water. John Wesley wrote in 1738, "It is the way to cure most diseases." All animals must be treated humanely.

12th Vision All cars are electric or hybrid, or self driving by 2025.
