Regarding the Letter sent by your office

Reference: Amended 30 Day Post-General Report (10/1/04 - 11/22/04).

Dated 4/20/05 - Received by this office 5/2/2005

This correspondence is to explain the further amendments of the 2004 reports July 15th Quarterly, the October 15th Quarterly , the 30-day Post General, and subsequently the January 31 Year End report.

In March of 2005 during our annual audit the auditors came across previously undisclosed funds that were generated by the Tempo fund through sales of logo merchandise as well as campaign contributions.

Primarily due to management changes this information was not previously reported. Once the auditors brought the negligence to our attention - in error I added the sum of these receipts and disbursements to 30 Day Post- General Report.

We were later alerted (by the above mentioned correspondence) to the problematic way in which we tried to be eradicate the problem. I have subsequently amended the above mentioned reports to reflect the accurate dates that the campaign contributions, to the federal candidates, were actually made.

Please forgive the confusion - being newly appointed to completing all aspects of this report it has been a lesson learned through trial and error. I appreciate all of your patience and your help. I would also like to thank Ed Ryan who was also tremendously helpful in my education. I believe that you will find that our reporting will be more accurately done from this point forward and please feel free to address any questions to the Departments Supervisor Lorraine Bartlett or to the Secretary Treasurer Florence Nelson.
