Dear Commissioners:

This submission is in response to the review of the above referenced reports.

1. The Committee maintains a segregated federal bank account funded from federally permissible sources within the federal contribution limits. The available federally permissible funds in this bank account exceeded the amount of contributions issued to federal candidates during both reporting periods. A factual point is that the Committee's reports do not indicate the federal account had insufficient funds to make the contributions. The contributions to the candidates were reported correctly, issued from a federal account containing sufficient federally permissible funds, and no refunds are required to be requested.

2. The independent expenditure made in support of Vice President Biden's primary election in the state of Nevada was not required to be reported within 48 hours. The independent communication began on 02/21/20, the day prior to the Nevada Democratic Caucus on 02/22/20. The Commission's regulations require 24 hour reporting for independent communications during the period after the 20th day prior to an election and more than 24 hours prior to 12:01 a.m. the day of the election. Independent expenditures communicated during the 24 hours prior to the day of the election are not subject to late reporting notices. 11 CFR Sec. 104.4(c).

Please contact the Committee if you require additional information.
