

Page 2 of 3

October Monthly: In addition to the changes resulting from the amended August Report, a contribution was attributed to the spouse of an employee, based on our interpretation of the signature on the check. As a result of a request for additional information, the contributor informed us that the signature was that of the employee. The amended October Monthly report attributes the contribution to the employee (Gordon Fruetel). As with the August Monthly Report, this report also correctly reports a series of credit card contributions on the date of authorization.

Pre General: In addition to the changes resulting from the amended August Report, two other disbursements to Altria Group, Inc. state level PACs (Michigan Altria Group, Inc. PAC and UST LLC Executives, Administrators and Managers Political Action Committee Tennessee) were incorrectly reported on line 22. In the amended Pre General Report these entries are correctly reported on line 29. Additionally, a contribution to the North Dakota Republican Party NonFederal Account was incorrectly listed on Line 23, as a contribution to the Partys Federal Account. The amended Pre General report correctly reports this contribution on Line 29. This report also correctly reports a series of credit card contributions on the date of authorization.

Post General: The Post General Report incorrectly reported information regarding our outstanding loan. The interest and principal repayment disbursements were combined and reported on Line 26. The amended Post General report correctly reports the interest payment on Line 21b. Additionally, the amended Post General report correctly designates the loan as secured, since it was secured with future payroll contributions.
