RE: Requests for Additional Information for 2020 October Quarter, Pre-General, Post-General, Pre-Rnnoff, Post-Runoff Reports

The Committee has faced challenges in working with a corrupted .Fecfle dcf file. The Committee has rebuilt the entire file ifrom January 1, 2020 because many of the issues cited in the letters above were attributed to the corrupted file. While we believe that the rebuilt file has corrected many of the issues over which the Committee has no control, such as incorrect running balances, there are still problems. The amended reports files today will have to be corrected. The Committee is committed to making certain that all information is disclosed accuately.
