

This letter is in response to the Request for Additional Information letter we received from the FEC dated 5/22/2009 regarding the 30 Day Post-General Report (10/16/08-11/24/08).

The committee's internal control system failed to identify these because they were individually under \$1000. It was not discovered until the preparation of our Post-General report by a professional preparer.

Steps have been taken to correct these internal control problems.
