

[BeginText]

The Committee is in receipt of the FEC's correspondence dated February 23, 2007, requesting itemization relating to "returned contributions from federal candidates totaling \$4000 on Schedule A supporting Line 15 of the Detailed Summary Page" on the Year End Report (11/28/06-12/31/06).

Prior to submitting the original report, on January 23, 2007, the Committee spoke with Liz from the Information Division and then later that day with Lauren Lien from the Reports Analysis Division to receive guidance on this very issue. During the conversation with Ms. Lien, she instructed the Committee to report the non-negotiated checks on Line 14 as an offset, which is how they were reported on the filed Year End Report.

The Committee electronically submitted an amended report today with the requested correction. As the letter indicates that this prior advice was incorrect, we shall file subsequent reports as directed in the February 23, 2007 letter.
