

To whom it may concern,

The report ending December 31, 2009 (Year End) was file late on February 2, 2010. We have requested a response from our vendor which follows below:

Due to an error that did not allow the client (American Dietetic Association, C00143560) to file directly from the software, the client sent the report to us to file on American Dietetic Association Political Action Committee behalf on 1/28/2010. While attempting to correct the error, American Dietetic Association Political Action Committee report was inadvertently overlooked and not filed as instructed.

Sincerely,

Paul Mifsud
