Dear Mr. Wetzel:

I am writing to give notice that I will likely be late on a 24 hour report that should be forthcoming.

We are running social media ads and have been in a billing vortex between Facebook and our payment processor over the last 24 hours or so.

When I tried to pay the bill yesterday, we received an error message. It appeared to be on the Facebook side. But today we are going back and forth with our credit card processor about a glitch on that side.

I am monitoring the situation and will file the 24 hour report as soon as the invoice processes. But at the moment, I'm unable to see the exact expenses and candidates needing to be reported.

I simply wanted to be proactive in making this explanation.

Thank you,
Heather Mahoney
Treasurer
