

## ETEXT ATTACHMENT

10/10/2003 17 : 45

FEC-68344 Amended 10/10/03

□

1. Our analyst, Alissa Sagri told me of our previous reports errors. We believe the problem with the H3 transfers showing, but no H4 activity showing was due to recording errors of the account codes. This should now be corrected.

□

On Sch. B we made contributions to a federal candidate after the elections. However, this candidate was in campaign debt for each of his elections. He had a primary, general and run-off in 2000. He also had a primary and general in 2002. Each time he was in debt and we understood we could make these contributions because of this.

□

Sch. A transfers: No contributions received by the DNC, DCCC and/or the DSCC were used or earmarked for candidates for any exempt activity.

□

Descriptions have been corrected or detailed on the Sch. B and H4. □

□

Sch H4, Line 21(a) regarding IEM was originally entered as was understood by our programmers. This has been changed to show a coordinating Sch F expenditure. □

□

The direct mail exempt activities were not paid for by any national party committee. No funds used were designated for a particular candidate and all costs were allocated and paid with permissible funds. □
