

To Whom It May Concern:

I am writing to report that the opening and closing cash amounts on the Form 3X are incorrect. I attempted to go in and change the opening cash amount so that the record would be correct, but your software either will not allow me to do that or I am unable to figure out how.

As such, I want to report the correct opening and closing cash amounts for the period 01/01/2011 to 06/30/2011 according to our committee's records.

They are:

Opening Cash: \$14,725.56

Closing Cash \$25,161.06

I would appreciate it if you would either fix the report to reflect these records or explain to me how I can do it.

Thank you.

Thank you.
