March Monthly: On its March Monthly Report, Altripac disclosed it had received a contribution of stock from a shareholder on February 26, 2010. Based on FEC advisory opinions, Altripac valued the stock at \$2,477.00, but did not include this in the total of contributions for the period. When Altripac attempted to liquidate the shares, it was informed that the stock had been reported lost and was exchanged by the owner on August 5, 2009, several months before Altripac received the stock. Because the stock had been exchanged, the brokerage firm confiscated the stock certificate that had been contributed to Altripac. Given that the stock certificate Altripac received had been reported lost and was subsequently voided, the stock had no value at the time Altripac received it from the contributor. As such, we have amended the March Monthly report to remove the previously disclosed contribution of stock. Because the original contribution was disclosed in accordance with the FECs guidance, the removal of this contribution will not alter the total of contributions for the period or for subsequent reports.

The clerical errors described above were corrected in electronic filings submitted with this letter. We regret any inconvenience or confusion that these clerical errors may have caused, and we have instituted measures to better ensure the accuracy of our reports.

I hope this adequately explains the reasons for these amendments. Please do not hesitate to contact me if you have any questions regarding these reports.

Sincerely,
Richard McDonnell
Assistant Treasurer
