Attached you will find our amendment reporting additional contributions received and in-kind donations. They were not reported on the original report due to the Treasurer's health. Unbeknownst to the board and professional treasurer, the Treasurer had a severe medical problem and was not forwarding checks or in-kind donations received to the professional treasurers' office for processing. It was discovered very recently because one of the donors reached out to the previous committee Treasurer to inquire why their check had not been cashed. At that point he tried to contact the Treasurer with no response. After numerous attempts it was discovered during a welfare check that he was not functioning because of severe health issues. The previous Treasurer has volunteered to take over those duties and we are now filing an amendment with that change as well.
