As per the request for clarification on the issue of an address discrepancy on our July Quarterly report, The Committee to Elect Adam Chaprales is filing this Miscellaneous Report (Form 99) to explain why the error occurred.

We want to assure the Commission that no actual address change has occurred, and that both addresses reported belong in fact, to our Committee. The initial address, as reported on the Form 2 (the P.O Box address) is the committee's official address. The other address (Main Street), which was reported on the disclosure of the initial filing of the July Quarterly report was the physical address of the campaign headquarters. The committee receives mail at both addresses, so a mistake had been made for mere failure to remember which address was originally given to the FEC, and thus, which one should be reported. We apologize for the discrepancy, and will make considerable efforts to assure it will not happen in the future.
