In response to the RAD we received from the FEC regarding our 2016 Post General Report (FEC-1133846), we have provided explanations below for each of the three matters in question in addition to filing an amended report.

1)

a. The contribution in question for \$2,500 on 11/8/2016 was incorrectly designated towards the 2016 General Election. It should have been designated towards the 2018 Convention and the report has been amended to reflect the correction.

b. We accepted a \$4,000 contribution towards the 2016 General Election from American Medical Association PAC on 4/22/16.

We also accepted a \$2,000 contribution towards the 2016 General Election from Utah Medical PAC on 11/3/2016. We were unaware at the time that these two PACs were affiliated and that the combined contributions of \$6,000 were in excess of the \$5,000 contribution limits. Upon learning this, we refunded \$1,000 to Utah Medical PAC and this refund will be reflected in our 2016 Year End Report to be filed by 01/31/17.

2)Our Post General Report showed six contributions that were received after 10/20/2016 yet incorrectly designated towards the 2016 Primary Election. We found that these contributions were all online credit card contributions and, due to technical difficulties with the software, were all automatically designated towards the 2016 Primary Election during the import of data from the payment portal to our filing software. We have amended our report to show the correct election period that these contributions should have been designated towards (5 towards the 2016 General Election and 1 towards the 2018 Convention).

3) We filed a 48 hour notice report on 11/2/2016 which included a contribution from Rocio Smith in the amount of \$2,000. Shortly thereafter, we received notice that the funds did not clear the bank and the money was withdrawn from the campaign account. Therefore, we did not include this contribution in our 2016 Post General Report. This explains the discrepancy between the 48 Hour Notice and the Post General Report.
