Thank you for your letter of December 10th. Please note that the memo entries on the October quarterly report correctly attribute the underlying donations to the joint fundraising committee. But since the joint fundraising committee had negative net proceeds, the committee did not receive a transfer but instead transferred its share of the expenses in excess of revenues (\$1,168.32 dated 9/30/14 that is listed on Schedule B of the report) back to the joint fundraising committee.
