We inadvertently contributed \$1,000 to the Hillary for America Presidential campaign. We called the Federal Election Commission when we received a letter from Hillary for America asking if we were registered with the FEC. We received differing opinions, and in the end were told we must register, so we did. It is not our intention to regularly contribute to federal election campaigns. We have requested that the Hillary for America campaign refund our contribution, and they have verbally acknowledged their intent to do so. We followed up with a letter requesting they refund our campaign contribution. We mailed a copy of the letter, as requested, to the FEC. We wish to terminate our registration with the FEC as of March 14, 2016. If we ever, in the future, get involved with federal activity, we will file with the FEC. Thank you for your consideration in this matter.
