

## **ETEXT ATTACHMENT**

**06/06/2003 17 : 43**

This submission is in response to an inquiry regarding the committee's 2002 Post-General Report:

Please note that the discrepancy between credit card payments and the memo schedules attached to such payments is caused by the fact that the committee was not paying the full amount of each credit card statement. The current memo entries on this report are representative of the credit card statements received during this reporting period and are attached to the payment made in connection with that credit card statement.

Please note that, as of the Post-General report, the credit card bill was paid in full and no debt exists subsequent to that report.
