Today we have amended our October 15, 2015 quarterly report to correct certain items caused by a software issue. Some of these items were highlighted in the FEC's RFAI dated November 15, 2015.

As it relates to Item #5, "Friedmutter Group?", we have changed the contributor to the Corporation, which has already been refunded. Originally this came in to us as a personal credit card contribution in the name of an individual. Subsequently, they told us that it was a corporate card even though they had attested in the online contribution that it was a personal contribution.

Please contact me if you need any additional information.
