Dear Quy:

This is in reference to the RFAI dated January 15, 2015 concerning the Amended October Quarterly Report received 11-3-14.

1. I have corrected the missing information for the contributors in excess of \$200 in a calendar year and have filed amended reports.
2. The Denton County Republican Primary account contains funds from filing fees from candidates and funds from the Texas Secretary of State that are needed to administer the primary election. The State of Texas allows the primary to pay for 30% of certain overhead expenses. In the recent past we would have written 2 checks to pay for each expense, 70% from the federal account and 30% from the primary account. Since most expenses are paid by automatic payment to the vendor these days, we elected to let the federal account pay for 100% of these expenses and then be reimbursed by the Primary account. I would appreciate your consideration of this clarification and allow the \$5,654.86 transfer to remain in the federal account.
