As noted on a 48 Hour report filed 10/18/2012, (820733.FEC), 48-Hour reports filed by the Committee on 10/10/2012 and 10/12/2012 indicated that the Committee made Independent Expenditures in support of Marco Rubio for Florida Senate. Each of these expenditures was actually made in support of Connie Mack for Florida Senate. The Pre-General Election report correctly noted that these expenditures were made on behalf of Connie Mack.

In addition, the Committee informs all donors whose contributions aggregate over \$200 for the calendar year of the requirement that we collect and report the name of their employer and occupation. All such donors who did not respond to our initial request for this information have been contacted again, without soliciting additional contributions. The Committee will amend the Pre-General report, or other reports as needed, if any donors provide the requested information.
