

This submission is in response to the Request for Additional Information dated May 9, 2007 relating to the Committee's Amended Year End Report.

The year-to-date issues raised by your letter were caused by an amended Pre-General report that was updated in our FECfile software but not filed.

The amendment was required after discovering entries were inadvertently left off the originally filed report. The Post-General was also amended to reflect the new year-to-date amounts.
