Please note that we have filed an amended report for the period ending December 31, 2017 and have tried to address each of the issues raised in the letter dated May 24, 2018. We are continuing our outreach to those very few remaining early donors who gave over \$200 but lack employer and/or occupation information. As the newest of the organization's Treasurers, I am committed to addressing your concerns. We have sent an email to all of the applicable donors and letters to others. The online form on the magacoalition.com website has been changed to prevent further similar issues going forward. We have also discontinued the use of Paypal. We have been receiving communications from our renewed outreaches to those donors and will continue to update any missing information. As the relatively new Treasurer for this PAC, this is a new experience for me and my colleagues. Should you have any further questions or concerns, please reach out to me. I look forward to addressing any additional concerns as quickly as possible.
