During 2017, a different accountant was working for the PAC (prior to their current CPA). Additionally, in 2018, a switch was made to utilize a more user friendly filing software program and it was also suspected that a lot of missing or incorrect data was used in the original filings. This prompted us to conduct a full and complete audit to be done. As a result of that audit in the latter half of 2018, additional receipts and disbursements were discovered and so we basically just started over from the very beginning and re-filed everything all the way forward.
