This submission is in response to the Commission's letter of April 11, 2002 regarding the committee's 2001 Mid-Year Report.

Please note that the discrepancy between credit card payments and the memo schedules attached to such payments is caused by the fact that the committee is not paying the full amount of each credit card statement. The memo entries for the credit card payments disclosed on this report were previously disclosed on Schedule H4 of reports filed during the 2000 calendar year. The current memo entries on this report are representative of the credit card statements received during this reporting period.
