Dear Ms. Phillips:

National Right to Life changed data processing company in July, 2002. National Right to Life was with this vendor for 25 years and this vendor was providing the cash information needed for various compliance filings. At the same time that we terminated with this vendor, we changed the caging procedures and moved the process to another bank. Our expectation was that the new bank will scan our mail and deposit the receipts in an efficient manner. Unfortunately, this new bank's equipment did not work with our mail as expected and the processing of our mail was greatly delayed. The processing was very slow and whatever was processed by the bank was transmitted to our new data processors, who are still in the process of learning to work with the new software.

Due to these unforeseen technical difficulties, I had very limited information as to what contributions we have received during this period. I had amended the report when the information was available.

Sincerely,
Amarie C. Natividad
