March Monthly (02/1/07-02/28/07)

Dear Laura S.,

This report is being amended for the following two reasons.

Approximately 3,000 of receipts were inadvertently omitted by our caging company who had inadvertently entered them as March receipts. Upon doing our detailed reconciliation for March, we found that the receipts were actually for February.

Several credit card memo entries that were originally reported as joint charges for February have been deleted. The items deleted dealt with expenses that related to the state convention and therefore were ultimately paid out of the non-federal account.

We believe the report is now compliant.

Sincerely,

Fred Arjani
