[BeginText]

This filing should serve as clarification for the Commission's request for additional information, dated February 25, 2005, regarding our 30 Day Post-General and Year End Reports. These reports disclose transfers from joint fundraising committees with which we are affiliated. These reports also disclose MEMO entries for receipts associated with the fundraising efforts of these joint fundraising committees. As a rule, we generally disclose all MEMO entries associated with each transfer directly after each transfer. Pursuant to the Commission's requests, the Committee will add an identifying note on each MEMO item in future filings. This identifying note will specifically relate to the transfer with which it is associated.
