This submission is regarding an April 14, 2015 RFAI referencing the Year-End Report for the KLV Political Fund.

As the RFAI indicates, two independent expenditure reports were not filed within 24 hours. One independent expenditure was disseminated on 10/21/14 but not reported until 12/3/14. As noted in the memo text attached to the 24 report, this was due to a misunderstanding about whether the dissemination or an expenditure triggered reporting. As soon as the oversight was discovered, the report was filed. A second independent expenditure was disseminated on 11/24/14 but not reported until 12/3/14 due to a misunderstanding about reporting requirements during a runoff, as also noted in the memo text. As soon as the oversight was discovered, the report was filed.
