This is in response to a Request for Additional Information we received regarding our 2011M2 amended report, which we filed on 1 November 2011. This Request was sent on 11 January 2012, and then again on 9 February.

The Request asked two questions, one regarding the beginning cash balance and one regarding a substantial increase in the amount of disbursements from the original report.

We have amended the beginning cash balance. This amendment was filed on 10 February 2012. This has necessitated amendments to all subsequent reports. These amendments are being filed as they are completed.

As for the increase in disbursements, this was due to an oversight on the original report. We had received a Request for Additional Information notifying us of the oversight, and the November amendment corrected it.
