This message is in response to the three letters sent on April 6, 2015 regarding negative available funds balances reported on certain FEC filing reports. The error was due to one or more causes but was primarily due to older stale checks that should have been canceled in prior years. These checks amounted to \$15,400. I am working to correct this matter effective with the 4/1/2015 report which has yet to be filed. I expect it will be filed on or before 5/29/2015.
