Re: Ryan Costello for Congress (currently Vested PAC)
FEC # C00554899
Year End Report - RFAI - Notice Date 8/1/19

This writing is in response to the above referenced notice regarding uncashed refunds totaling \$12,700 originally reported in our year end report. (On 7/5/19 Ryan Costello for Congress converted to a multi candidate committee, Vested PA. Therefore, the funds were drawn from Vested PAC).

In compliance with Advisory Opinion # 2003-18, our campaign has issued a check to the US Department of Treasury for \$12,700. This check represents the disgorged amount of excessive contributions that were determined to be unreturnable to original contributors. A cover letter was also included with the check detailing the following "uncashed checks":

- Richard Rogers \$2,500
- Thomas Rastin \$2,700
- Weston Solutions PAC \$2,500
- American College of Radiology \$5,000

I apologize for any inconvenience this may have caused as I did not fully understand the ruling. Please do not hesitate to contact me should you have any further questions.

Sincerely,
Linda R Dexter
Treasurer
