This miscellaneous report is meant to serve, as a matter of public record, indicating that our committee, per the advice of the Federal Election Commission Reports Analysis Division, will continue to file Campaign Finance Reports, until our Administrative Termination, from April 6, 2018, is reversed. Our Administrative Termination was due to lack of activity. We still don't have a lot of activity, and as a result, aren't legally required to even register with the Federal Election Commission, but have opted to do so. We are actively working to increase our committee activity.
