October Monthly Report (9/1/04 - 9/30/04)

In reference to the contribution from T. K. Eng & Associates Investment Group, this organization is not a corporation. It is however a limited partnership with a corporation as a 1% partner. I learned this fact February 4, 2005. I have transferred the amount of the contribution equivalent to 1% to an account not used to influence federal elections and advised the contributor by letter that she is entitled to a refund. A copy of the check will be mailed to you. I have amended the report to reflect the donation from the partners.

Regarding the negative ending cash balance, there was never at any time an overdrawn condition on our bank account. I have amended this report showing additional contributions.

Regarding Schedules B and H4, the expenses in question were originally paid from a nonfederal account which was the wrong account to have used. When I realized the mistake, I reimbursed the non-federal account from the federal account which is the account that should have paid these expenses.
