This letter is in reference to the "Misstatement of reported activity" report filed December 2, 2004. The "Misstatement of reported activity" reflects back to August 1996 thru April 1998. A portion of the amount was not identified, it is understood that this is the difference in the investment loss that was not taking in to consideration when the reports were filed.

We informed Sam Pierce from the Audit Division the circumstance regarding the historical problem with the cash balance due to unreported activity and that a portion amount that was not able to be identified.

He advised us to reflect adjustments to current activity and classify identified amounts and non-identified amount to other disbursements and to title it "Misstatement of reported activity". He stated to file the report with a letter explaining the situation on hand.

Teamster Local 745 Drive cash balance was reconciled as of August 1996 when it was place into Trusteeship. The Local was brought out of Trusteeship in April 1998. The new treasurer tried to identify all of the assets when he took office and discovered that the last reports filed by the previous treasurer did not agree to the assets identified.
