

In response to your letter dated March 10, 2006 please note that the committee is not large enough for an office. The committee pays overhead expenses as they are incurred directly or through the various fundraising and administrative consultants that are hired as needed. Legal Fees are also incurred and paid. The committee does not have a phone line and there are no salaried employees. In addition, no work is preformed on a volunteer basis for the committee therefore there are no in-kind issues.

Please contact me with any further questions. Thank you.
