For two 24 hour reports closed on March 18th, CPA was unable to file on March 19th due to a firwall problem with the FEC electronic filing software. This has happened in the past, but immediately upon contacting the electronic Filing office, this was resolved and the reports were filed. We furthermore submitted the 24 reports via fax to ensure best efforts at submitting said reports in a timely manner, so please note this in your records. Thank you.
